### Characteristics

Complementary feed for horses and ponies.

Prequine® Librium is a supplement used to calm and relax horses prior to transport or other stressful situations.

### Directions for use

Shake well before use. Either administer directly into the mouth as is, or diluted with very little water.

Dosage based on horses of > 500 kg

Horses in training:	1 x 5 ml per day, for a longer period of time
Prior to transport or sport event:	2 x 5 ml per day, from 5 days to event
Extremely anxious animals:	2 x 10 ml, 18 and 6 hours respectively prior to event
Foals and ponies:	half of above quantities

### Storage

Store dark and dry at 15 - 25°C. Close packaging after each use.

Keep out of sight and reach of children.

### Presentation

Bottle à 200 ml.
