

## HOOFLEX

### Composition

Contains:

Chloroxylenol	0.5%
Alcloxa	0.25%
Propylene Glycol	
Terpineol	
Water	

### Characteristics

Hooflex Thrush Remedy kills embedded bacteria and fungi and helps promote normal healing.

### Indications

Symptoms of thrush include thick black discharge around the frog, accompanied by foul odour. White Line Disease is an infection that begins at the hoof sole's white line and extends upward into the hoof wall. Cavities form in the hoof wall and emit a foul odour.

### Dosage and administration

For external use only on horses or livestock.

No shaking necessary

1. After cleaning the hoof, apply Thrush Remedy into clefts of frog and any holes or cracks
2. For active infections, treat once daily for at least three days
3. For maintenance, treat twice weekly

### Warnings

If condition persists longer than two weeks, call your veterinarian. Avoid contact with eyes. In case of contact, immediately flush eye with plenty of water.

### Storage

Store at room temperature 15-25°C.  
Keep out of sight and reach of children.

### Presentation

Bottle à 355 ml
